- DURABLE & VERSATILE - Advanced specifications including all-terrain rubber tires and a shock-absorbent suspension package
- FULLY PROTECTIVE BATTERY COMPARTMENT - shields from all debris and mud
- BATTERY LEVEL DISPLAY - in real-time

Battery	36V12AH lead acid
Charger	UL 36V
Power	1000w
Speed Governor	Three-speed
Top Speed	30 km/hr
Brakes	Disc
Tires	15" diameter, 2.5" width (10" rim)

Seat Height	24" (61cm)
Product Dimensions (L x W x H)	44"(112cm) × 13"(32cm) x 22"(57cm)

Ride through dirt. Using real off-road components.

Powered with the 36V battery and 1000W motor, the eBike X can be ridden through mud, rain, bumpy roads, and uphill. Real all terrain rubber tires (10") provides better traction, better stability and higher ground clearance. Shock-absorbent suspension makes it less bumpy and it is less likely your child can fall.

No more getting stuck in the middle of the road.

Ride for hours. Not just 15 mins.

The eBike X comes with real time battery level display. Ride up to 2 hours on a single charge. Achieve a top speed of 18 mph (30 km/hr) mph with the powerful 1000W motor. Also, the battery compartment is designed to protect the battery from outside debris and mud.

Advanced safety features. Less likely to fall.

The eBike X is equipped with combined mechanical and electrical power cut off safety brake system. The 3-speed governor lets you control the speed the child can go.
