Description

Complete engine, commonly referred to as "Honda Clone Engine" 6.5HP (aka GX160 format) with EPA emissions certification. This is a Bashan brand 5.5 HP multi-purpose motor used for a full range of applications as one of the world's most popular types of gasoline engines. Shaft diameter of 0.79 inches (25/32).

Comes with separate 80A1190 carb, which needs to be installed into engine.

In powersports applications it can be used as a direct replacement for the Baja (Baja Motorsports) mini bike as well as buggies, go karts and a seemingly endless range of custom machines.

In other applications this engine is used for everything from wood splitters to water pump, water pressurizers (pressure washers, sprayers etc.) and hundreds of other applications.
